Python – Ascii Art

Purpose

This lab was designed to teach you how to output text to the console window and how to use escape sequences.

Description

Write a program that produces any text art (sometimes called "ASCII art") picture you like. Your program can produce any text picture you like, with the following restrictions and details:

- The picture should be your own creation, not an ASCII image you copied and pasted from the Internet or elsewhere.
- The number of lines drawn should be at least 10 but no more than 200, and no more than 200 characters / line.
- The picture should not include hateful, offensive, or otherwise inappropriate images.

Program Shell

Create a file called ascii_art.py

Sample Execution
