Python – Fight Song

Purpose

This lab was designed to reinforce the idea of decomposition by processing data via functions and outputting the result.

Description

Produce the University of Texas fight sone but remove any redundancy by implementing functions.

Program Shell

Create a file called fight_song.py

Sample Execution

```
Texas Fight, Texas Fight,
And it's goodbye to A&M.
Texas Fight, Texas Fight,
And we'll put over one more win.
Texas Fight, Texas Fight,
For its Texas that we love best.
Give 'em hell, Give 'em hell, Go Horns Go!
And it's good-bye to all the rest! (YELL)
Yea Orange! Yea White!
Yea Longhorns! Fight! Fight! Fight!
Texas Fight! Texas Fight,
Yea Texas Fight!
Texas Fight! Texas Fight,
Yea Texas Fight!

The Eyes of Texas are upon you,
All the livelong day.
The Eyes of Texas are upon you,
You cannot get away.
Texas Fight, Texas Fight,
For its Texas that we love best.
Give 'em hell, Give 'em hell, Go Horns Go!
And its good-bye to all the rest!
```
